

MISSION STATEMENT

The North Carolina Science Fair Foundation (NCSFF) is a non-profit organization whose purpose is to promote science literacy in elementary, middle, and high-school students through participation in inquiry-based learning. NCSFF promotes science and engineering research by partnering with the community to integrate student scientific research into science education. NCSFF works to increase diversity and engagement of underrepresented student populations in science and engineering research. NCSFF organizes science and engineering fairs to showcase and celebrate student success in research and learning.
